# About the Experience

New Earth Bandits is not like a regular show that you would go see inside a theatre. You do not stay in one place during this show. Instead you will move at your own pace around the site to experience the show.

When the show begins, you will be divided into groups. You will start moving as a small group different locations around the site. You can choose to go with your group assignment or go your own way, as long as you stay on the main path.

At different points on the path there are different stories happening. You can choose to stay with a story as long as you would like. There are a total of 8 different stories happening all around the park.

The performers will be moving around the entirety of the site. They may hand you things during the show. You are allowed to keep any stones or things made out of paper that you are directly given. You may also be invited to add these items to a "wishing well."

Near the end of the show, audience members will be guided to one main area along the path so that they can watch the final scene together.
